INVITATION

RENEXPO Central Europe International brokerage event 12 March 2014, SYMA Event and Congress Centre

The **REECO Hungary Ltd.** is organizing for the eighth time the **RENEXPO© Central Europe - Renewable Energy and Energy Efficiency Exhibition** on the **12- 13 March 2014 in Budapest, Hungary** at the SYMA Event and Congress Centre.

The eighth RENEXPO Central Europe international exhibition will be focusing on East- Central Europe and Hungary's innovative-, high quality renewable energies and future energy- efficiency solutions. It will also provide a great opportunity to learn about industrial novelties and for self-promotion.

Main focus of the exhibition:

- Sustainable and decentralized energy production - Renewable energy
- Energy management, distribution and supply
- Innovative and efficient use of energy
- Intelligent and energy efficient energy application

The **Hungarian Investment and Trade Agency** (<http://www.hita.hu>) in co-operation with the **Enterprise Europe Network** organizes an **international brokerage event** and a **site visit** connecting to the fair on the **12 March 2014**. The fair and the brokerage event will be held at the **SYMA Event and Congress Center** (<http://www.syma.hu>).

The brokerage event will offer a perfect opportunity for all participants to meet Hungarian and international companies, professionals, researchers active in different fields of environment protection. The participants will have the opportunity to engage in discussions and negotiations within an organized framework in order to identify co-operation and other business opportunities. The event is organized with the co-operation of Enterprise Europe Network, which aims to facilitate finding new business partners for realization of national and international co-operations.

More information about the exhibition: <http://renexpo-budapest.com>
