

# MECH 400 SUMMER PRACTICE II

Course Code:	3650400
METU Credit (Theoretical-Laboratory hours/week):	0(0-0)
ECTS Credit:	4.0
Program:	<a href="#">Mechanical Engineering</a>
Language of Instruction:	English
Level of Study:	Undergraduate
Course Coordinator:	<a href="#">Dr. Murat Sönmez</a>
Offered Semester:	Fall or Spring Semesters.
	Consent of the Program
<b>Prerequisite:</b>	(MECH 311, MECH 305, MECH 303, MECH 307, ECO 280 strongly recommended)

## Course Objective

At the end of this course, the students will be familiar with various types of organizations in which they are likely to work after graduation, get acquainted with practical and applied aspects of their theoretical mechanical engineering background, be able to have studied non-engineering departments and their relations with technical departments.

## Course Content

Students are required to do a minimum of four weeks (twenty working days) summer practice in a suitable factory, a power station, or an engineering design and consultancy office. They are expected to get acquainted with a real business environment by studying various managerial and engineering practices through active participation. A report is to be submitted to reflect the student's contributions.

## Learning Outcomes

The students are expected to acquire the applications of the mechanical engineering theoretical background on machine design, thermal engineering, quality assurance and cost analysis.
